Karnataka, India

Career Objective

Full Stack Developer with hands-on experience building and deploying MERN applications, secure REST APIs, and AI-powered web solutions. Skilled in React.js, Node.js, Express.js, MongoDB, and Python, committed to delivering high-quality software solutions and contributing to scalable web products while continuously enhancing technical expertise.

Education

Master of Computer Applications (MCA)

2025 – 2027

Presidency College, Bengaluru

CGPA: 8.5

Bachelor of Computer Applications (BCA)

2022 – 2025

SDVS College, Sankeshwar, Belagavi

CGPA: 8.9

Class XII (Science-PCMB)

2020 – 2022

SJPN College, Nidasoshi, Belagavi

Percentage: 72%

Class X (SSLC)

2019 – 2020

Swami Vivekananda School, Sankeshwar, Belagavi

Percentage: 89.76%

Internship / Work Experience

Ligand Software Solutions – Full-Stack Development Intern

Feb 2025 – Feb 2026

Sankeshwar, Karnataka

- Developed and maintained **5+ full-stack web applications** using React.js, Node.js, Express.js, and MongoDB, contributing to feature development and production deployments.
- Designed and implemented **99+ REST API endpoints** powering a MERN-based LMS serving **700+ students**, supporting authentication, academic management, AI interview coaching, and administrative operations.
- Contributed to **3+ AI/ML and LLM-powered applications** using Python, Flask, Scikit-learn, and modern AI tools in collaborative Git-based development environments.

Projects

Ligand Work-Space (LMS) | Ligand Software Solutions

2025-2026

Live: liganddevelopers.vercel.app

- Developed a MERN-based LMS platform serving **700+ students across multiple colleges** with attendance, homework, fees, exams, and project management modules.
- Built role-based admin tools for managing colleges, student registrations, pass-out status, project groups, exam scheduling, result visibility, and academic content distribution through a centralized dashboard.

- Trained and optimized a machine learning model using a 150MB dataset containing nearly 800,000 network traffic records and 40 security-related attributes for cyber attack prediction.
- Developed a Flask API and React dashboard that analyzes 40 network and website parameters in real time to identify malicious activity and potential security threats.
- Implemented anomaly detection features including automatic account blocking for repeated failed logins, suspicious IP changes, and abnormal resource download behavior, requiring administrator approval for reactivation.

Morse Security | MERN Stack | Ligand Software Solutions

2025

- Developed a MERN-based secure file-sharing platform supporting **3 user roles (Guest, User, Admin)** with JWT authentication and real-time notifications.
- Implemented password-protected file sharing using custom Morse-code encoding rules and email-based password delivery.
- Built a local Morse decryption utility with secure download validation, access auditing, and temporary account banning for repeated failures.

LetMySpace | MERN Stack | SDVS College, Sankeshwar, Belagavi

2025

- Developed a full-stack real estate platform enabling users to browse, list, manage, and search properties through a responsive React-based interface.
- Developed comprehensive property management workflows with Node.js and MongoDB, streamlining operations and improving efficiency for over 500 managed properties by 25%.
- Integrated image upload functionality, advanced property filtering, and user-friendly dashboards to improve property listing and management experiences.

Skills

Technical Skills

- Languages: JavaScript (ES6+), Python, C.
- Frontend: React.js, Bootstrap, HTML5, CSS3, Axios
- Backend: Node.js, Express.js.
- Cloud Storage: Cloudinary
- Databases: MongoDB
- Machine Learning: Scikit-learn, OpenCV, Model Integration via Flask API
- Tools & Platforms: Git, GitHub, Postman, Vercel, Render, VS Code

Soft Skills

- Analytical
- Self-Motivation
- Adaptability
- Collaboration

Certifications

- Programming in Python — Coursera
- Data Structures and Algorithms — Algorithms365
- Job & Exam Aptitude Mastery — Coursera

Achievements

- Secured 1st Place in a Coding Competition conducted at Presidency College, Bengaluru.
- Successfully delivered an end-to-end software project to a client, from development to deployment.
- Participated in the PW Rift Hackathon, Avinya Hackathon at SJIT College, Bengaluru.
